

A History of Galena City Council Actions and Amendments to the Galena AF base Reuse Plan

Minutes 1-22-08

Ordinance 2008-06

An Ordinance Amending Chapter 16.04 of the Galena Municipal Code to Provide for Recognition of Existing Non-Conformities and to Provide for Variances from Design Requirements.

State platting laws require that anything which does not conform to municipal code requirements be noted on the face of the publicly recorded plat. The Galena Municipal Code, as it relates to platting, planning and zoning, has no accommodation or grandfather clause for variances in the existing buildings, roads, or alley ways at the Galena Airport Subdivision. This ordinance would allow the City to exempt itself from its own requirements, note those variances on the Plat of the Galena Airport Subdivision, and approve it for recording.

- A motion to introduce Ordinance 2008-06 was made by Jenny Pelkola. The motion carried.
